Sl no	Topic	PG student
1.	Evaluation of void formation at the interface of posterior composite resin restoration and dentine surface by using microcomputed tomography – an invitro study	DrJashwanth Reddy
2.	Compare the sealng ability of different rootcanal sealers in simulated lateral canal – an invitro study	DrSabeena Susan Thomas
3.	Comparison of four reagents to evaluate dentinal permeability and their capability to occlude dentinal tubules in the management of dentinal hypersensitivity – an invitro study	DrShamina Pradhan
4.	Comparison of the effects of three whitening tooth paste on surface roughness and colour stability of a composite resin material – an invitro study	Dr Ashok K B
5.	Comparing microleakage of three bulk fill composites in class 2 cavities using confocal microscopy – an invitro study	Dr Manne UdayaSwapna
6.	An vitro study to evaluate physical properties of two resin based materials used for the management of decalcified lesions	DrSravaniRudraraju
7.	Incidence of apical crack initiation & propagation during the removal of root canal obturation material with three retreatment systems	Dr Anita Reddy
8.	Invitro evaluation of bond strength & fracture site of simulated vertical root fractures restored with two adhesive materials	DrKanikaVarshneya
9.	Invitro comparative study of three obturating materials on apical sealing ability & their effect on fracture toughness	DrSruthyVelangupara
10.	ATP assay – a rapid method for detection of antibacterial efficacy of intra canal medicaments - an invivo study	DrIshita K L
11.	Compare the effects of conventional irrigants sodium hypochlorite & chlorhexidine with herbal extracts of cashew leaves, mango leaves & miswak sticks on the micro hardness & flexural strength of human dentine	DrPrincy Maria Philip
12.	An invitro comparative evaluation of ion release, solubility, porosity & water sorption of MTA flow & MTA plus in two solvents	DrSrideviAaripaka
13.	An intro evaluation of fracture resistance of root filled premolar teeth, reinforced with & without interpenetrating network fibres& fibre-reinforced composite in a mesio-occluso-distal preparation	Dr Priyanka Prakash
14.	Effect of matrix metalloproteinases inhibitors on the bond strength of tooth restored with composite – an invitro study	DrAmishi Parikh
15.	Quantification of caries bacteria in chemico mechanically assisted step wise, conventional stepwise and direct complete caries excavation methods using adenosine triphosphate driven bioluminescence in adults- a clinical interventional study	Dr Shirish Magadum
16.	Association between periodontal defect and pulp volume using CBCT a crosssectional study	Dr Naveen Nair
17.	Evualuation&comparision of color match between tooth remnants and nanofilled /nanohybrid composite resin in class IV restorations :a randomised controlled trial	DrGagandeep Kaur Chadha

No of LDs – 15

1	Cast metal inlay and onlay	Dr Nirupama D N
2	Tooth colored restorative materials	DrJashwanth Reddy
3	Principles of esthetics	DrSabeena Susan Thomas
4	Dentine bonding agents	DrShamina Pradhan
5	Surgeries in endodontics	Dr Ashok K B
6	Minimal intervention dentistry	Dr Manne UdayaSwapna
7	Esthetic post	DrSravaniRudraraju
8	Regenerative endodontics	Dr Anita Reddy
9	Diagnosis in endodontics	DrKanikaVarshneya
10	Microscopes in endodontics	DrSruthyVelangupara
11	Ceramics in endodontics	DrPrincy Maria Philip
12	Indirect esthetic restorations	DrSrideviAaripaka
13	Forces acting on all restorations	DrAmishi Parikh
14	Bleaching	Dr Shirish Magadam
15	Collagen and MMPS in dentistry	DrGagandeep Kaur Chadha
